<b>ASSIGNMENT - 1</b>	

<b>Task</b>	Upload the dataset to Cognos Analytics, delete the unnecessary columns, create a data module, and explore and visualise the dataset.
-------------	--

### Problem Statement:-

The growth of supermarkets in most populated cities is increasing and market competitions are also high. The dataset is one of the historical sales of a supermarket company which has recorded in 3 different branches for 3 months data. Predictive data analytics methods are easy to apply to this dataset.
